

KU Office of Research Pre-Award Services provides this select compilation of funding opportunities as a resource for University of Kansas Researchers. We encourage you to utilize the campus subscription to PIVOT to find funding opportunities specifically tailored to your research area based on keywords you provide. PIVOT is easy to use and offers other valuable services that are helpful to researchers. Access is available at this site: <https://pivot.cos.com>

If you have questions regarding *PIVOT*, please contact Matt Stevens (mstevens@ku.edu, 4-5549).

Upcoming Funding Events/News

Upcoming Changes to Pre-Award Services

Thank you to everyone who attended the recent Financial Systems Transformation Town Halls, both in person and online. For those of you who were not able to attend, videos, slide decks and other training materials are available at fst.ku.edu. Please continue to watch this site for additional updates.

As discussed in the Town Halls, the Office of Research will go live with Streamlyne Research as our new pre-award system on November 20. Streamlyne is a comprehensive tool that will be used primarily by Pre-Award staff to develop proposals, submit proposals to federal sponsors, route proposals for approval, and store proposal-related documents.

What is staying the same?

- Pre-Award staff still need to review and approve proposals before submission to the sponsor;
- Contact your preferred research center or the Office of Research (kucrpremgmt@lists.ku.edu) for proposal assistance;
- Make contact at least 3 weeks before the deadline for proposal preparation, 5 working days for proposal review.

What is changing?

- PI will complete the PI Checklist in Streamlyne;
- PI will certify and approve the proposal in Streamlyne before submission to sponsor;
- Department Chair, Dean, and Director approvals in Streamlyne will be implemented in two phases:

Phase I begins 11/20/17 – Approval will be required before an award can be established

Phase II TBA – Approval will be required before the proposal is submitted to sponsor

Email notifications from @ku.streamlyne.org will be sent when action is required. Please do not ignore, delete or filter these notifications. The notification will include a link to the proposal that requires your attention, and a link to your 'Action List' – a list of all proposals that require action on your part. Once you click on either link, you will be prompted to login using your KU credentials.

If you have questions, please contact your preferred research center or the Office of Research (kucrpremgmt@lists.ku.edu). We are happy to provide training and assistance.

Updates to active Funding Opportunity Announcements to Prepare for Policy Changes Impacting Due Dates On or After January 25, 2018

All active FOAs with due dates on or after January 25, 2018 will be updated with the following exceptions:

- Parent announcements will NOT be updated since they will be reissued (with new FOA numbers) for due dates on or after January 25.
- FOAs that will allow applications proposing clinical trials will NOT be updated since they will be reissued (with new FOA numbers) for due dates on or after January 25.

Summary of Changes to Active FOAs

- In preparation for clinical trial-specific FOA policy ([NOT-OD-17-043](#)), we will add a clinical trial allowability indicator in table in **Part 2, Section II. Award Information** (NIH only).
- In preparation for FORMS-E application forms ([NOT-OD-17-062](#) and [NOT-HS-17-015](#)), we will add text to the PHS Inclusion Enrollment Report form instructions in **Part 2, Section IV. Application and Submission Information** to indicate the form is only available in FORMS-D application packages for due dates on or before January 24, 2018.
- In preparation for FORMS-E application forms ([NOT-OD-17-062](#) and [NOT-HS-17-015](#)), we will add text for the PHS Human Subjects and Clinical Trials Information form and instructions in **Part 2, Section IV. Application and Submission Information** and indicate the form is only available in FORMS-E application packages for due dates on or after January 25, 2018.
- To align announcements with Rigor and Transparency policies (Research: [NOT-OD-16-011](#), Career Development: [NOT-OD-16-012](#)), we will update **Part 2, Section V. Application Review Information** to include
 - the appropriate rigor and transparency questions in the Research Plan section, and
 - a section for Authentication of Key Biological and/or Chemical resources within the additional review criteria.
- To align announcements with recent vertebrate animals changes ([NOT-OD-16-006](#)), we will update the Vertebrate Animals section of the Additional Review Criteria in **Part 2, Section V. Application Review Information** (NIH only).

NCI Cancer Moonshot Funding Opportunities

The National Cancer Institute is pleased to announce the release of [17 new Cancer Moonshot funding opportunities](#). Efforts supported through the Cancer Moonshot aim to accelerate cancer research, making more therapies available to patients and improving the ability to prevent cancer and detect it the earliest stage possible. Learn more about these opportunities [here](#).

You are encouraged to [subscribe to receive email updates](#) for the latest information about these FOAs, particularly the announcement of pre-application webinars. Many closing dates are fast approaching so be sure to sign up today.
