

KU Office of Research Pre-Award Services provides this select compilation of funding opportunities as a resource for University of Kansas Researchers. We encourage you to utilize the campus subscription to PIVOT to find funding opportunities specifically tailored to your research area based on keywords you provide. PIVOT is easy to use and offers other valuable services that are helpful to researchers. Access is available at this site: <https://pivot.cos.com>

If you have questions regarding *PIVOT*, please contact Matt Stevens ([mstevens@ku.edu](mailto:mstevens@ku.edu), 4-5549).

##### **Avoid Funding Delays by Ensuring Your Progress Reports are Compliant with the Public Access Policy**

To advance science and improve human health, peer-reviewed articles arising from NIH funds must be made available to the public on [PubMed Central](#).

Grantees should ensure their peer-reviewed manuscripts arising from NIH funds are deposited into PubMed Central **upon acceptance for publication**, as well as reported in their annual Research Performance Progress Reports (RPPRs), to be compliant with the NIH public access policy.

As described in NIH Guide Notice [NOT-OD-16-079](#), NIH will not process RPPRs until all papers arising from the award are compliant with the public access policy. That means funding for awards with non-compliant RPPRs could be delayed. The NIH manuscript submission system (NIHMS) typically takes 3 weeks to process papers.

You are encouraged to ensure compliance well before your RPPR is due to avoid delays in processing your RPPR and receiving funding.

For step-by-step instructions on how to bring a particular paper into compliance with NIH's public access policy, please use the "[Show me specific instructions for my publication](#)" link on the NIH [public access policy homepage](#).

Additional training and self-help materials are available [on the public access website](#).
