This select compilation of funding opportunities is provided by KUCR Pre-Award Services as a resource for University of Kansas Researchers. We encourage you to utilize the campus subscription to PIVOT to find funding opportunities specifically tailored to your research area based on keywords you provide.

PIVOT is easy to use and offers other valuable services that are helpful to researchers. Access is available at this site: https://pivot.cos.com

If you have questions regarding PIVOT, please contact Jenni Wiles at jwiles@ku.edu or 864-7423.

Upcoming Funding Events/News

**American Heart Association (AHA)**

Open Science policies will go into effect with applications due in July 2014 and new awards beginning January 2015.

The AHA requires that all journal articles resulting from AHA funding should be made freely available in PubMed Central within 12 months of publication. The AHA requires grant applicants to include a data sharing plan as part of the application process. Any data that is needed for independent verification of research results must be made freely and publically available within 12 months of the end of the funding period (and any no-cost extension). Specific early career awards are currently exempt from this requirement (Undergraduate Fellowships, Medical Student Research Fellowships, Predoctoral Fellowships, Mentor/AHA Mentee Awards, Postdoctoral Fellowships, and Mentored Clinical & Population Research Awards). For more information, please see AHA Open Science policies

**National Institutes of Health (NIH) Requests for Information**

**Shared Instrumentation Grant Program (S10) (NOT-OD-14-104)**

This Request for Information (RFI) gives an opportunity to S10 applicants, users of instruments, and others who have interest in the Program to comment on the Program requirements and suggest modifications to improve the service of the Program to the NIH research community.

To ensure consideration all comments must be submitted electronically at http://dpcpsi.nih.gov/orip/S10RFI by August 24, 2014.

**Soliciting Comments on a Potential New Program for Research Funding by the National Institute of General Medical Sciences (NOT-GM-14-122)**

This is a time-sensitive Request for Information (RFI) directed at obtaining input to assist the National Institute of General Medical Sciences (NIGMS) in its planning for a pilot program under consideration to fund investigators’ overall research programs, which represents a compilation of the investigator’s research projects funded by NIGMS. All responses must be submitted to https://www.research.net/s/NewGrantProgram_gov by August 15, 2014.

Responses are limited to 500 words per topic.
