Creating an External Study in eCompliance

**NOTE: An external study may only be used when an IRB Authorization Agreement (reliance agreement) is in place with another institution with a valid Federal Wide Assurance (FWA) number and IRB Registration number. Please contact irb@ku.edu with any questions, or additional information on collaboration with other institutions.

1. To create a study, go to ecompliance.ku.edu and log in using your KU ID and password.

2. Click the “Create New Study” button in order to get started.

**NOTE: The default screen when you log in is the eCompliance inbox. This will only show you any projects that require action from the research team. To see all of your current studies, you can click “IRB” in the red banner.
3. On the Basic Information page, fill in information about the study. To create an external study, select “Yes” for question 7, “Will an external IRB act as the IRB of record for this study?”
